

CORPORATE SOCIAL RESPONSIBILITY STATEMENT

LM Technologies recognises that its business activities impart varying levels of direct and indirect impact on the communities in which it operates. LM Technologies seeks to manage these impacts in a responsible manner and is committed to an ongoing review process and to continuously improve its systems and procedures to ensure progress beyond legal compliance. The key areas in which LM Technologies is committed to improve its Corporate Social Responsibility are as follows:

Health & Safety

LM Technologies is committed to a management programme for health and safety to fulfil all relevant legislative requirements and to promote a continuous improvement policy to ensure a safe and healthy working environment for all employees and others who may be affected by the company's activities. Our standards and expectations are defined within Operations Management System and the LM Technologies Health, Safety and Environment Policy. Regular audits of the HSE system and the review of objectives and targets ensure monitored progress and continuous improvement.

Employees

LM Technologies recognises that its employees are its most important asset and aims to provide a fair and competitive environment for all employees. Opportunities for personal development and career enhancement are fully supported by the company and are reinforced by the recruitment and selection procedure, an extensive training programme and employee appraisals.

Environment

LM Technologies objective is to reduce its impact on the environment through legal compliance and a commitment to continual improvement. Effective management systems to reduce waste and ongoing review of the use of natural resources form the primary objectives within the LM Technologies Environmental Management System.

Customers

LM Technologies business and livelihood depend on its customers and the company ethos is to ensure that all dealings with customers reflect attitudes based on professionalism, efficiency and honesty. LM Technologies seeks to continually provide high quality service and products to all customers with expertise and commitment from all employees.

Community

LM Technologies is committed to developing its awareness of community needs and issues and thereby to ensure the company is a responsible and caring part of the community. LM Technologies recognises that its business activities have an impact on society – irrespective of how extensive this impact may or may not be, the company endeavours to understand how its activities may affect the world at large and will manage these impacts in a responsible manner. LM Technologies is focused on promoting a continuous improvement in standards for all its activities which will be achieved through establishing objectives and targets, conducting risk assessments and safety audits and developing action plans to address known or identifiable risks or concerns.
