Overview

The LM153 Mini USB Power Supply is a compact mains power transformer with three interchangeable faces, making it suitable to be used within the United States and all European countries, including the UK. It also conforms to BS1363, found in Cyprus, Gibraltar, Ireland and Malta.

The Mini USB Power Supply is supplied within the Retail Pack of the LM048 and LM058 Bluetooth® Serial Adapters and can also be used with any Mini USB power input sockets, such as our Bluetooth® Development Kits or third party devices that require a 5v Mini USB power supply.

This Mini USB power supply has a Mini USB Type B connector that not only can be used with our Bluetooth® Serial Adapters, it may also be used in other generic applications that require a Mini USB power supply in todays market.
